Profile

Hi — I'm Dewansh. I build clean, responsive websites and small C programs. I enjoy solving problems, learning new technologies, and turning ideas into working projects. Currently exploring full-stack web development and systems programming.

Skills

- C, C++, Python
- HTML, CSS, JavaScript
- Git & GitHub
- Data Structures & Algorithms
- Linux, VS Code, GCC

Projects

1. Portfolio Website

A clean and responsive portfolio website built using HTML & CSS with sections like About, Skills, Projects, and Contact.

2. C Programs Collection

A structured set of C programs including searching, sorting, pointers, structures, and file handling programs.

3. Mini Web Apps

Small JavaScript apps like To-Do app, calculator, and UI components.

Education

B.Tech – Computer Science Engineering (CSE)

Delhi Technological University (DTU)

2025 – Present
